The mainstream media is trying to distract from Acosta's behavior by claiming I "sped up" or "distorted" the footage that was later posted by Sarah Sanders of Acosta overpowering a woman who tried to retrieve a mic.

This is complete bunk. I did not.

The clip is not "doctored" or "sped up". As you can see from the original editing track in Sony Vegas Pro, none of the individual tracks are "sped up". A track that is sped up would show wavy lines in the original track field, which it doesn't.

Facebook has now deplatformed those they consider 'dangerous extremists '

Hamas, Hezbollah, and PFLP fan pages still cool.

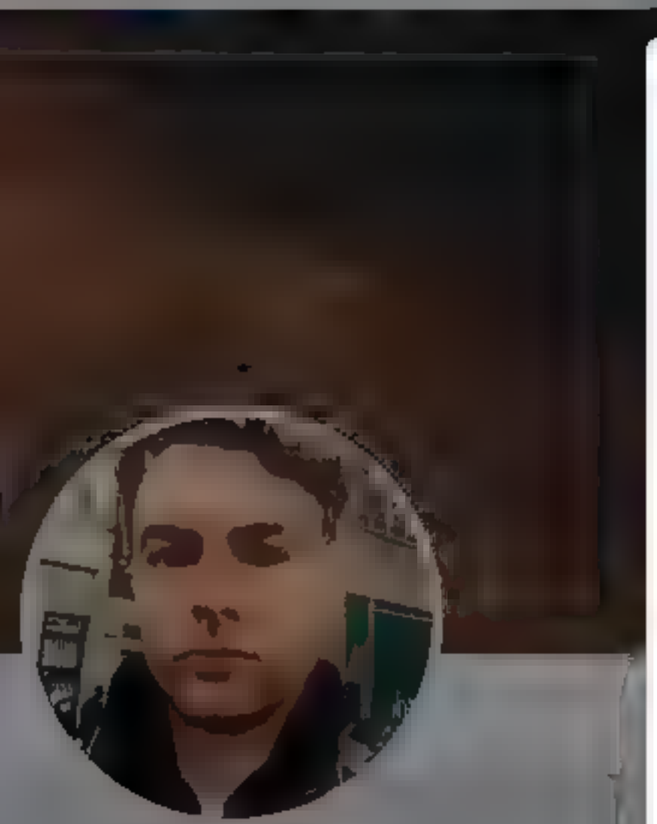
Read the whole thing.

I had bottom surgery yesterday. Everything went great and now I'm finally done with the whole transitioning phase of being trans. Even bought myself a support shark to help me recover.

The doctor was very very very clear that it may would not be like a vagina. And I knew that before I met him. They literally couldn't make it like that. But I would literally do anything to get rid of poop. And the smell is caused by bacteria and will be there for as long as I live.



The thing is the odor is just getting worse and worse. It smells strongly of feces. When it was healing it had those healing wound healing smells. But wounds are not supposed to smell like feces.

But it smells REALLY bad. It's so disgusting and unbearable. That's the absolute worst part about this. It smells literally like actual poop.

And that gaping blackhole down there is the "canal". It's always open like that and the pink part with a wound in the middle is like a cavity in real life. It's hard to see on the picture but you could fit a finger in that cavity. From the side you can see that half of the outer edge or "labia" is gone. That pink part of it is a cavity.

Yeah, it's not like Obama said the UK would literally be at "the back of the queue" for a trade deal if we voted for Brexit.

Bug eating day for all the family!

Kids praised and given stickers for eating bugs!

When I was in school, kids who ate bugs weren't given stickers, they were put back a year.

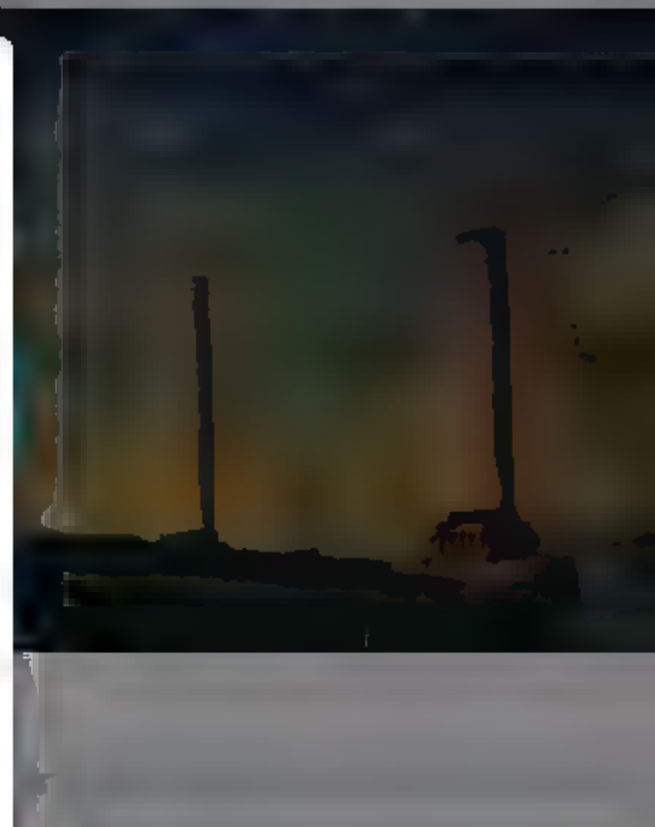
Terminator: Dark Fate was one of the 'wokest' movies of recent times.



All female leads, sympathetic portrayal of illegal immigration, progressive themes.

In the US, it pulled in just a $29M opening.

Its flop will leave studios $100 million in the hole.

Get woke, go broke.

The question was focused around the 1st Amendment & included the issue of Florida passing a law that outlawed criticism of Israel within the education system.

Your immediate response was not to defend the sanctity of the 1st Amendment, but to call the questioner an anti-Semite.

How to defend against suicide

1 **Deflect the hold.** If a suicide tries to grab you from behind to choke you, press his forearm against your collarbone instead of trying to pull it directly off, which may be difficult if you're fighting a suicide stronger than you. Put one hand above his elbow on the forearm and one hand below. Also your hands are on both sides of the elbow. Now in one strong and determined movement, step and swing your entire body around like the arm is the hinge to your body's screen door.[8]

Swedes say refugees should be accepted into people's homes. When presented with one and asked to take him in, they suddenly change their minds!

Although a Democrat, Tulsi Gabbard comes across as very moderate, rational and patriotic. She's also a "woman of color". Yet the left hates her and the media demonizes her at every available opportunity.

Tells you everything about how far to the fringes they've shifted.

Although a Democrat, Tulsi Gabbard comes across as very moderate, rational and patriotic. She's also a "woman of color". Yet the left hates her and the media demonizes her at every available opportunity.

Tells you everything about how far to the fringes they've shifted.

Swedes say refugees should be accepted into people's homes. When presented with one and asked to take him in, they suddenly change their minds!

Big difference between the virtue signal and the reality.

Although a Democrat, Tulsi Gabbard comes across as very moderate, rational and patriotic. She's also a "woman of color". Yet the left hates her and the media demonizes her at every available opportunity.

Tells you everything about how far to the fringes they've shifted.

Although a Democrat, Tulsi Gabbard comes across as very moderate, rational and patriotic. She's also a "woman of color". Yet the left hates her and the media demonizes her at every available opportunity.

Tells you everything about how far to the fringes they've shifted.

Swedes say refugees should be accepted into people's homes. When presented with one and asked to take him in, they suddenly change their minds!

As Hamas terrorists launch hundreds of rockets into Israel, people are still free to publicly support the group on Facebook. Support me on there and you'll be banned.

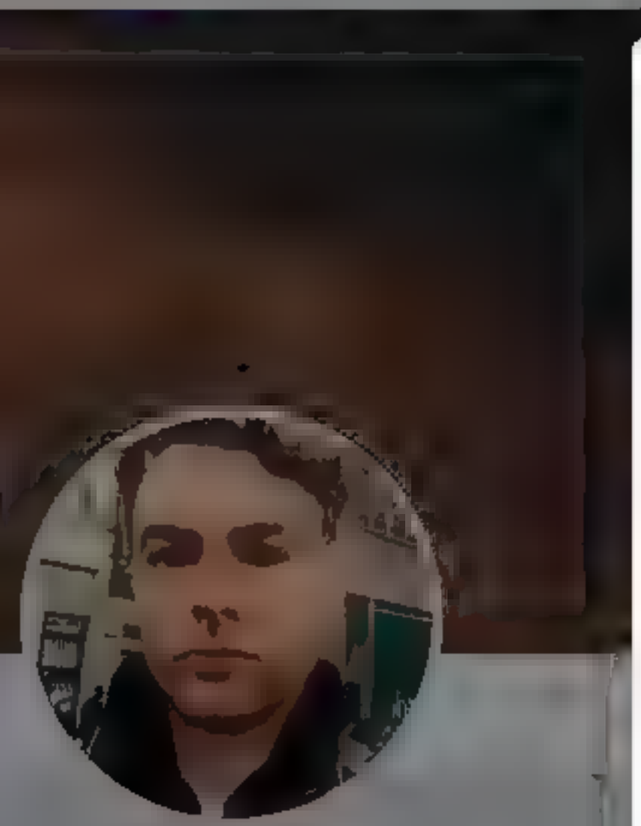
Facebook has now deplatformed those they consider 'dangerous extremists '



Hamas, Hezbollah, and PFLP fan pages still cool.

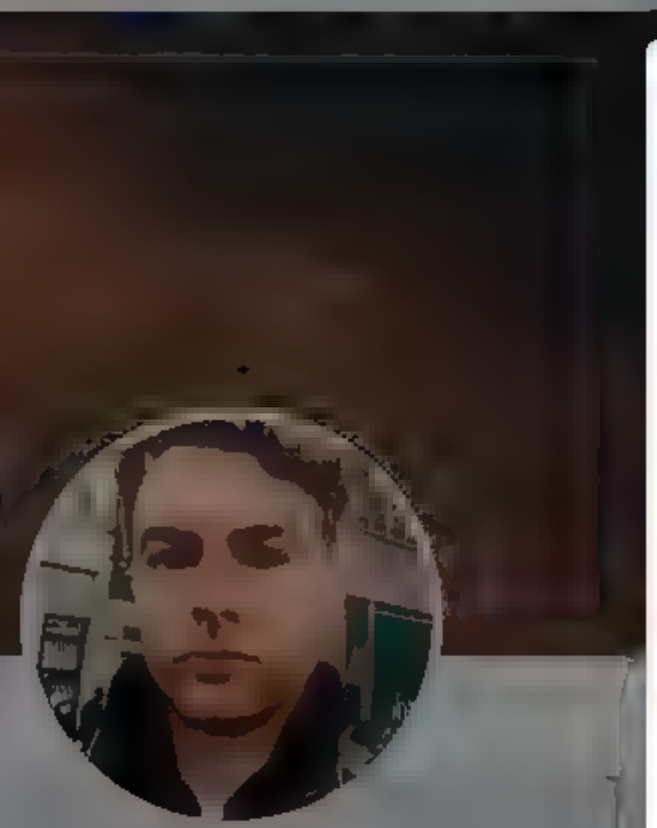
11th such death this year in similar gang-related circumstances.



Amazing how Poland & Hungary don't have problems anywhere near the same level.

While violent crime soars, our police are being dispatched to kidnap Christian street preachers because they criticised Islam.

Being a street preacher can be a thankless business. Since moving to Britain from Nigeria nine years ago, 64-year-old Oluwole Ilesanmi has toured the country reading aloud from the Bible, spending hours outside train stations, urging people to see the light. Sometimes he makes a convert, most of the time his preaching falls on deaf ears. Last month, it resulted in him being arrested.

Saturday 23 February began like a typical day for Ilesanmi. He went to Southgate tube station in north London and preached for a few hours. His spiel included a disobliging reference to Islam, which seemed to rile a passer by. To Ilesanmi's surprise he was then accosted by the man. A woman who ...ed the incident says she feared Ilesanmi ...bout to be attacked. 'The man had his ...ead to the preacher's forehead. Well done to the public and the police on the fast response on London Bridge but was there any need for the police to kill the man? They could have easily arrested him but murdered him instead. State murder doesn't sit well with me.

Julian Assange is still dying in prison for the crime of doing journalism and virtually no journalist on the planet cares.

They're too obsessed with defaming and deplatforming their ideological enemies because journalism is dead.

And so might Julian Assange be pretty soon.

The London Bridge terrorist was released from prison after just 8 years despite literally plotting to bomb the London Stock Exchange. Two innocent people are now dead because of that.

The terrorist had just stabbed several people and was wearing a fake explosives vest. The police acted accordingly.

Every one already knows.
The shooting was clearly reckless and unnecessary. He could easily have been arrested. They'd taserd him.
Just when Johnson goes under the spotlight re various issues, and Labour close the gap in the polls. Hmm.

Well done to the public and the police on the fast response on London Bridge but was there any need for the police to kill the man? They could have easily arrested him but murdered him instead. State murder doesn't sit well with me.

State murder doesn't sit well with me. Might deter others if they know there are consequences. It will certainly deter the perpetrator permanently.

Look how they define sexism.

Feminists Think Sexist Men Are Sexier Than "Woke" Men

Why do women find sexist men appealing?

Benevolent sexism describes a form of sexism which is overtly less hostile and misogynistic, and reflects beliefs that was taught as a man from the U.S South. Benevolent sexism includes beliefs that

- Women should be "put on a pedestal"
- Women should be cherished and protected by men.
- Men should be willing to sacrifice to provide for women.
- Women are more virtuous than men
- Women are more refined and pure compared to men

Another day, another inflated moral panic blamed on social media.

Remember, the ultimate goal is to only allow legacy media and 'approved' voices on these platforms.

The rest of us will be silenced.

The agenda here is obvious and it must be challenged.

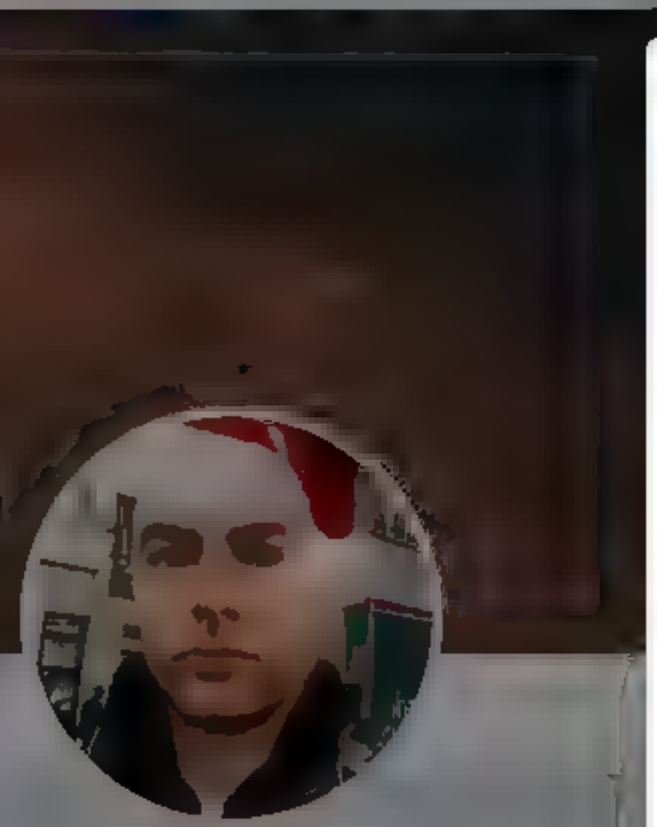
The idea that potential Labour voters will be put off by the party's anti-Semitism problem is beyond naive.



Given the choice between standing true to their principles and seizing power, leftists will choose power every single time.

No money spent on diapers, or having to save for a college fund 18 years. All the free time, sleep and disposable income. Why would anyone want kids?

Social media has really screwed up the left.

They're addicted to insulting others as 'bigots' for retweets, for virtue signaling brownie points from their fellow woke idiots.

But relentlessly labeling potential voters 'racists' doesn't win elections.

It makes them hate you.

Yes, we get points for every time it triggers dumb, hysterical, reactionary tweets like this one.

Figured it out yet?

christine teigen @chrissyteigen

Let's pretend for a second these people really are doing the white power/white nationalism hand gesture. What does it even do for anyone? Do you get points for each time it's seen like? Is there a boss out there keeping score? Or is it like paging.

What a shame all these biased, far-left newspapers who share the same mono-culture opinion don't have seats in the Senate!

Chappel e s new show has 8.5 on MDB (where user reviews are a lowed) yet just 17% on Rotten Tomatoes (where al rev ews are by "crit cs")

Americans are tired of be ng lectured by pedantic woke id ots about what they're a lowed to laugh at

@PrsonPlanet

After I posted this, Rotten Tomatoes finally allowed audience scores and the difference is stunning.

Americans are sick of being lectured about what they're allowed to find humorous.

I still don't understand.

Left-wing activists & hyper-privileged celebrities telling millions of people they were stupid, ignorant racists whose votes shouldn't have counted DIDN'T make those people want to vote Labour.

Imagine my shock!

I'm really not understanding this. A transgender stripper for a homelessness conference? How is that relevant and why are they getting entertainment? Shouldn't they be conferencing on homelessness? Or are they indicating homelessness is tied to transgenders. or vice versa?

Many of the same people who constantly talk about inclusivity, tolerance and diversity have spent the last 5 days demonizing those who expressed diversity of opinion at the ballot box as "vermin," blaming them for "killing" thousands of people and wishing violent harm upon them.

With his reach and a 7 minute video, the 450k views at this time indicate that PewDiePie has taught more philosophy, in 1 day, on a manhours basis than 3 philosophy lecturers teaching 200 students for 3 hours per week for 26 weeks

And his demographic probably benefit.

Left-wing parties push blanket university attendance because many universities are Marxist brainwashing camps.
They create lifetime voting blocs for leftist parties.
Not everyone is meant to attend university.

This is true of virtually all conservative "conferences."

There's nothing wrong with socializing, but at least be honest about it, the "conference" aspect is basically watching a few 'preach to the choir' speeches then everyone just goes off and gets drunk together.

We're on the verge of Britain becoming Siberia. Better panic.

Or, alternatively, it was all bullshit.

US edition

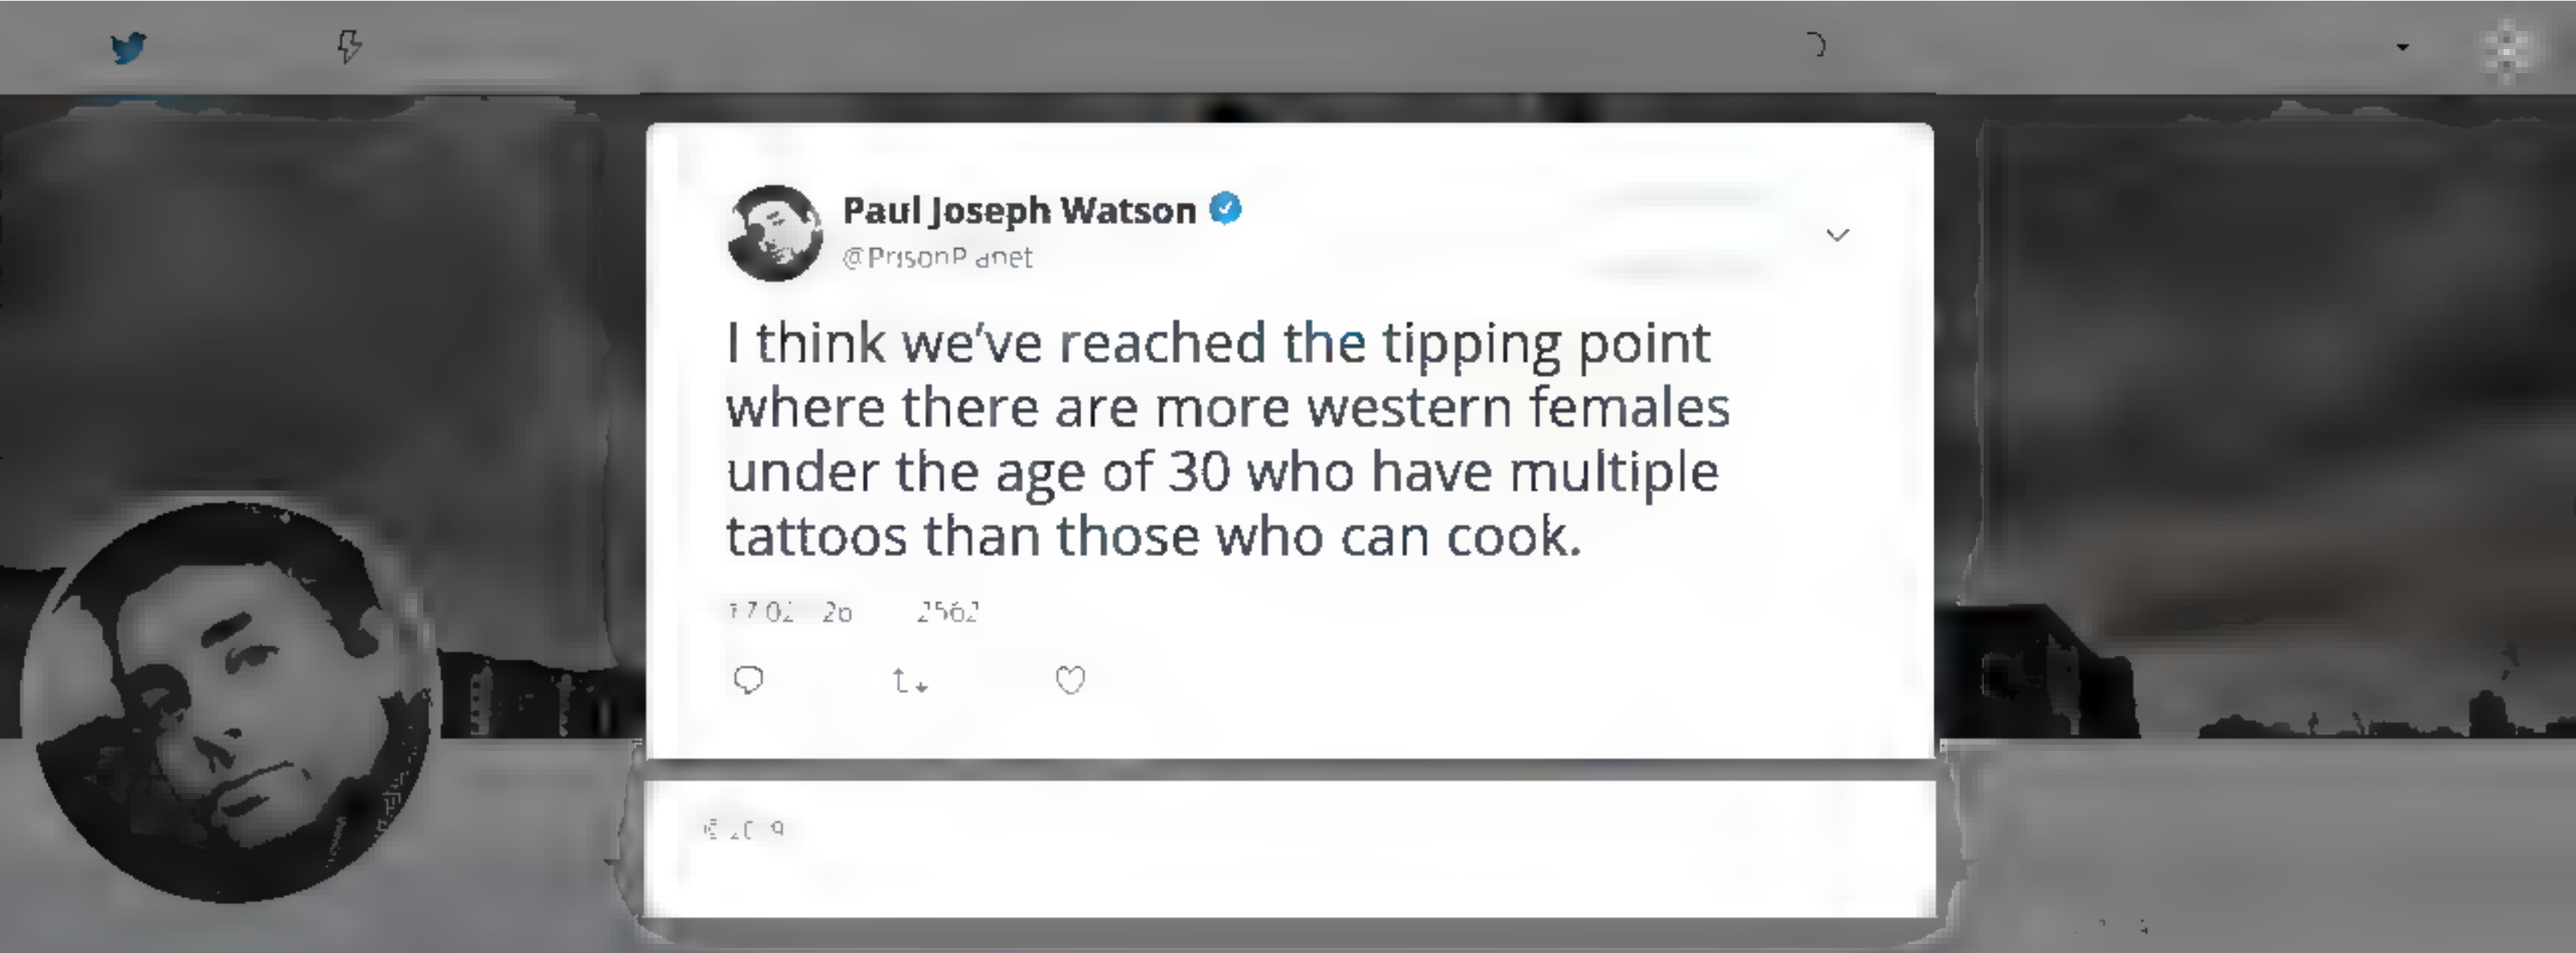
The Guardian

Sat 21 Feb 2004 20.33 EST

Now the Pentagon tells Bush: climate change will destroy us

- Secret report warns of rioting and nuclear war
- Britain will be 'Siberian' in less than 20 years
- Threat to the world is greater than terrorism

Climate change over the next 20 years could result in a global catastrophe costing millions of lives in wars and natural disasters.



A secret report, suppressed by US defence chiefs and obtained by The Observer, warns that major European cities will be sunk beneath rising seas as Britain is plunged into a 'Siberian' climate by 2020. Nuclear conflict, mega-droughts, famine and widespread rioting will erupt across the world.

57% isn't "epidemic" given that white people are 73% of US population.

In the figure you cite, 27% of offenses are committed by black people, who make up 12.7% of the population.

So your own stat actually shows black people over-represented.

Pretty racist fact if you ask me.

I still don't understand.

Left-wing activists & hyper-privileged celebrities telling millions of people they were stupid, ignorant racists whose votes shouldn't have counted DIDN'T make those people want to vote Labour.

Imagine my shock!

Short for "debased," referring to a concept, object, practice or ideology that has been stripped of its intrinsic significance by association with and absorption into the mass cultural continuum.

Only 5 hours until the UK is "plunged into a Siberian climate."

Climate change experts warned us and we know they always get it right.

US edition

The Guardian

Sat 21 Feb 2004 20.33 EST

Now the Pentagon tells Bush: climate change will destroy us

- **Secret report warns of rioting and nuclear war**
- **Britain will be 'Siberian' in less than 20 years**
- **Threat to the world is greater than terrorism**

Climate change over the next 20 years could result in a global catastrophe costing millions of lives in wars and natural disasters.

A secret report, suppressed by US defence chiefs and obtained by The Observer, warns that major European cities will be sunk beneath rising seas as Britain is plunged into a 'Siberian' climate by 2020. Nuclear conflict, mega-droughts, famine and widespread rioting will erupt across the world.

Yes, Colin, America "sanctioned and besieged black and brown bodies" to such an extent that you, raised by a white family, were able to become massively rich and famous beyond your wildest dreams.

If this is being "sanctioned and besieged," count me in.

Trump saying 'if you fuck with us, we'll smash you' in a tweet is way less concerning than...

- Invading Iraq for no reason, leading to 500,000 deaths
- Overthrowing a secular leader in Libya, leading to the rise of ISIS & mass terror in Europe
- Arming jihadists in Syria

Yes, it is possible to be against Middle Eastern intervention and escalation with Iran without fawning all over a dead terrorist and a country that routinely massacres its own people.

It is possible to hold both those views at the same time.

After having supported every act of Middle Eastern intervention and aggression under 8 years of Obama, the mainstream left and the media is suddenly 'anti-war'.

Interesting.

The MSNBC dude who went on air to amplify fake Iranian propaganda that 30 U.S. soldiers were killed is now amplifying Iran's dubious claim that the Ukrainian passenger plane fell out of the sky due to "mechanical issues."

Ali Arouzi @alarouzi

Initial reports by Iranian officials suggest it was mechanical issues that brought the plane down

You voted for someone who oversaw regime change in Libya, which led to the refugee crisis, the rise of ISIS, and multiple mass casualty terror attacks in cities all over Europe.

Is the #WomensMarch2020 going to march on the Iranian or Saudi embassy? Countries where women are actually deprived of basic rights?

You live in the west. There are no rights men have that you don't have. Go home and put the kettle on.

Saudi doesn't deprive women of basic rights. not anymore

Women in the Middle East love their lives. They live a life of luxury spending their days at the spa or at home whilst their men work.

don't see Middle Eastern women complaining lol

An Antifa group has revealed they will be present at the pro-gun rally in Virginia on Monday.

Virginia Governor Ralph Northam has issued an executive order banning all guns at the event.

Some pro-gun protesters say they will bring them anyway.

Stay safe everyone.

It is interesting that the debate around Twitter shaming and cancel culture only has one criteria: does the person still have any kind of job. Ignoring the mental health consequences - and even suicides - of being shamed and piled on in public. Read @jonronson for details.

This isn't true. The CDC lumps in every pneumonia death into the flu number. So every old person who falls and breaks a hip and then gets pneumonia in the hospital died of the "flu". That number is about as accurate as the way the govt calculates inflation, GDP, and unemployment.

death threats for insulting Islam on social media

A 16-year-old French high school student has been told to go into hiding after receiving several death threats for insulting Islam on social media.

Mila, from Lyon, in eastern France, shared a series of short Instagram videos in response to what she said was online homophobic and racist abuse from religious fanatics.

The teenager, who regularly posts videos of herself singing on her Instagram profile, told those who were abusing her that she hated religion, there was nothing but hate in the Islamic holy book and that Islam itself was sh*t.

She subsequently received a torrent of abuse, alongside a number of serious death threats, that has led to her requiring a police escort

I visited China numerous times and they served snake in the best restaurants. It's normal to eat snake there.

Don't eat shit that is a vector for disease & pandemics.

It's really not that hard
1)see gross sexual comment by a guy
2)click his profile
3)see woman usually tagged in her profile or in pictures where tagged etc
4) take screenshot, contact woman/tag her in the thirsty comment he left

It's morally rewarding

Elizabeth Warren wants to hit social media companies with criminal penalties for 'spreading voting disinformation online'.

I'm fine with this. If they want to behave like publishers by banning users and manipulating algorithms for partisan purposes, treat them like publishers.

- Sentenced to 3 years for terror offences & encouraging his gf to behead her parents.
- Released half way through his sentence.

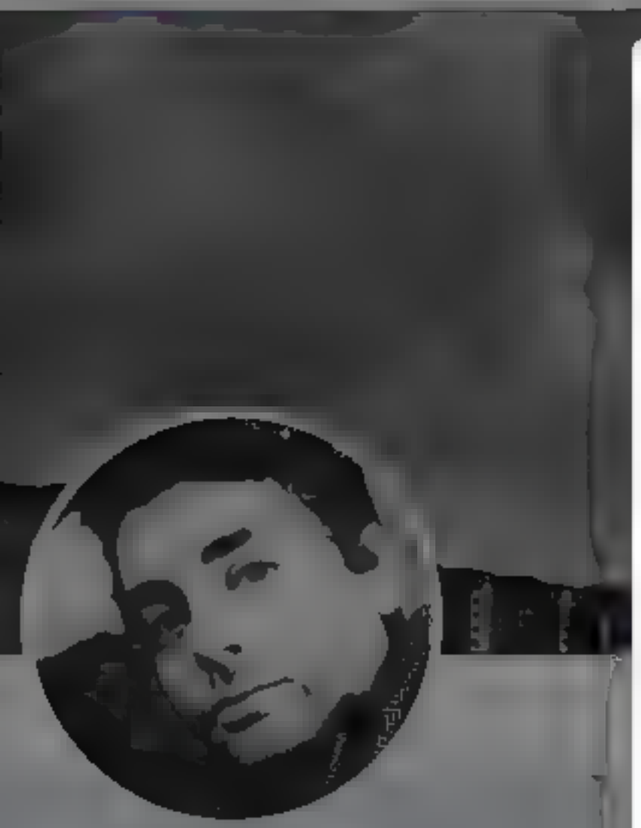
Imagine doing all this and getting less than 18 months jail time on early release. Welcome to the UK.

In November 2018, Amman was sentenced to three years and four months in jail for a string of terror offences, which included



– Pledging allegiance to ISIS
Plotting to carry out a terror attack using a knife
Sharing terror manuals, including one on how to make a homemade bomb
Encouraging his girlfriend to behead her "kuffar" (non-believer) parents
Stockpiling arms
Inciting violence toward Yazidis and asserting the Koran permitted them to be raped
Encouraging an "attack" against a pro-gay rights speaker in Hyde Park.

However, despite all of this, Amman was released a few days ago, halfway through his sentence, and immediately planned to carry out a terror attack.

What you're doing isn't journalism, it's activism

You've smeared the Prime Minister of Hungary as "far-right" without evidence

And you've intimated that a conference run by an Orthodox Jew is antisemitic

Setting off to spend a year teaching English in Zhejiang province in south-eastern China I expected plenty of surprises But what struck me most was something they tend not to tell you about in the guidebooks the racism

It started when I went around the classroom asking pupils which city they were from When I got to a slightly darker-skinned boy his classmates thought it was hilarious to shout Africa It's a theme A girl with a similar complexion was taunted with monkey sounds her peers refused to sit next to her saying she smelt bad I apparently erred when teaching the word for wife I showed my students a picture of Michelle Obama The image of the then First Lady was greeted with exaggerated sounds of repulsion "So ugly" they said "So black"

Such comments would have been treated harshly in a British classroom a quarter-century ago let alone today But my own protestations were met with confused faces crestfallen that they'd disappointed their teacher but clueless as to the nature of their mistake And this stretches far beyond the classroom To many Chinese ideas about racial hierarchies are not outdated anathema but unquestioned belief

In 2019 they had to reinstate Sir Roger Scruton after believing misleading media stories about him.

Now they've jumped the gun once again, smearing a whole conference of their own friends and sympathizers.

The media's new definition of "doctored" is basically any video that makes the left look bad.

Editing is NOT doctoring. All videos are edited. If Pelosi succeeds in getting this banned, the censorship vice tightens once again.

Banning Nick Fuentes is another act of political censorship by YouTube.

Lots of conservatives go around college campuses saying they believe even offensive, disagreeable speech shouldn't be censored.

If you believe that some people are too offensive to be allowed a platform, you don't believe in free speech, you believe in political censorship. Very dishonest to pretend you don't!

I've said it before and I'll say it again.

Culture is controlled by tedious, insipid bores who are threatened by anything funny, original or authentic because their entire lives have been an exercise in comformist inauthenticity.

Deplatforming is the revenge of the dullards.

You "reached out" to Twitter to try to get him banned by Twitter because you disagree with his opinions.

This is why journalism has been totally discredited and why people hate "journalists" like you.

Coronavirus conspiracy theories

Any type of major world event that imperils a segment of the population is going to result in absurd pushes for real facts, and as such, coronavirus conspiracy theories are cropping up to try and explain what's "really going on.

In the case of the Wuhan virus, there are a number of alternate theories spreading through social media in both China and the West. Among other things, they allege that China created the coronavirus in Wuhan in a mysterious biolab, that U.S. researchers patented this strain of coronavirus to use as a weapon, that Bill Gates is somehow involved in the pandemic, or that China is suppressing how bad the virus really is.

Could China have created the coronavirus on purpose?

Conspiracy theorists, particularly on Reddit's r/conspiracy, are running with the idea that because China opened a maximum security biomedical research lab in Wuhan a few years earlier, it must be connected to the viral outbreak—either through an accidental release of a pathogen or the purposeful testing of a weapon.

It's true that China opened its first biosafety level 4 laboratory in Wuhan in 2017 to study biological threats and pathogens, and that this is the only lab that can handle the coronavirus

Judge Jackson's comment here is apparently why she stripped Roger Stone of his 1st Amendment rights - because of some vague future act that could 'potentially' happen

So much for the Constitution

Jackson says Stone "willfully" participated in activity designed to disrupt the proceedings by stirring up supporters on social media, which could have potentially led to someone to act out. Jackson calls the behavior "intolerable."

The shocking treatment of Roger Stone is political retribution - over 3 years later - for the 2016 election result.

Virtually every prominent person who supported Trump has faced punishment in some way.

The President must pardon.

And does this rant have anything to do with the fact that they gave you a show on there?

Guys, #QuadenBayles is not 18. He was in the news 5 years ago as a four year old. And he looked four, very clearly. The story isn't that Quaden is pretending. It's that his mother is exploiting him. He is indeed a victim.

Russia banned all travel from China & closed its border. Had 2 cases of coronavirus (both Chinese) who have now recovered.

Italy did nothing, now has hundreds of cases and some of those people have spread it to multiple other European countries.

Yes travel bans obviously work.

WHATS IN THE BOX?

I think the “soyface” phenomenon stems largely from an inability to express authentic, spontaneous feeling, and that the impulse behind the self-deprecating, self aware contortion is a desire to obscure that emotional lack and the discomfort it causes

When experts declared that the coronavirus likely spread from bats, far right figures began circulating videos showing Asian people consuming exotic animals. While our leaders tell us migrants bring diversity and diversity is a strength, Turkey is literally using migrants as a weapon against Europe.

Something doesn't add up here.

Theodore Dalrymple on the real purpose of political correctness.

The fatuous ideology of diversity

People n the West ive, writes Da rymple

> n a totalitarian condition in which they are afraid to say some things and what s worse are requ red to say others. They are obliged to deny what they believe and assent to what they do not believe There s no better way to destroy the personality Peop e become cyn cal t me-serving ncreasing y self absorbed Their mpotence breeds apathy Once they start to utter th ngs for the sake of their careers or the r peace and qu et that they do not be eve, they ose self-respect and probity and thus their standing to resist anything People without probity are easy to control and manipu ate, the purpose of politica correctness s not to enunciate truth but to exercise power

They are now attacking migrant homes and businesses (vandalizing & looting) across south-western Turkey in an attempt to force migrants to pack up and leave for #Greece

It's weird how they push THIS SPECIFIC TYPE of "Performer" onto kids

If it really was about the drag queen's "Entertaining"the kids, why not just hire a different entertainer ie a clown?
